ANSAL API ENSURED ON-TIME PROJECTS & INVESTORS TRUST WITH ORACLE

Why They Choose Oracle EBS:

Ansal API today is among the leading Realty and Infrastructure companies of India. A widely reputed and professionally managed Organization, Ansal API currently operates in a range of business verticals such as Integrated Townships, Condominiums, Group Housing, Malls, Shopping Complex, Hotels, SEZs, IT Parks and Infrastructure and Utility Services.

Being a Infra mughal, Ansal desired to deliver all projects intact as per plan and keep their investors trust upright. The project management was the most critical aspect and in order to gauge the cost incurred on each project since its inception, tracking and controlling each task Oracle was the best solution available. Critical business aspects covered were:

- Create Accountability of assignment (project) to the team delegated,
- Schedule for the bills to be raised during the course of the assignment,
- Billing on the basis of time allocated by the resources,
- Statement of Expenditure for each assignment to capture cost incurred since its inception,
- To assess the profitability project wise

Oracle helped the organization in managing its projects via controlling cost and managing its receivables for various assignments.

Challenges

- Project Management
- Agreement based Billing
- Billing depending on Milestone Completion
- Project Budgeting Control
- Project wise Asset Management
- Date specific Compliances
- Budget VS Actual Cost by Business Unit
- Project wise Profitability
